

K-Love provides me awesome strength and love! It lifts me when I'm down and sends me higher when I'm doing ok. Their music is positive, which is a HUGE changed compared to everything else on the radio! If you displace KLove by an LPFM broadcaster, too many people would be affected! So many people count on KLove to lift their spirits, keep their children listening to good radio and keep them inspired and positive. So many people, such as myself and my husband, keep KLove ont he radio all the time. It's the most encouraging music and helps keep people loving and caring, which is a great need in the world today! The world needs to be encouraged at all times and KLove does just that!
